

Software Engineer Intern and Intern Team Lead at IIST with hands-on experience across full-stack web development, CMS projects, AI-powered applications, computer vision, IoT HMI software, and mobile development. Delivered a real-time, CPU-only object detection system, coordinate and support a team of interns, and independently build database-driven applications. HNDIT student with strong troubleshooting, system integration, and problem-solving skills.

Technical Skills

Languages	Java, JavaScript, Python, Dart, C#, C++, PHP, SQL
Frontend	React, HTML, CSS, Tailwind CSS, Vite
Backend	Node.js, Express.js, PHP, .NET, API Integration
Mobile	Flutter, Dart
Databases	MongoDB, MySQL, Firebase
AI / Computer Vision	Object Detection, OpenCV, NCNN, YOLO-Fastest, Groq AI, OpenAI-compatible APIs, PDF/PPTX Document Processing
IoT and Systems	IoT, HMI Software, Hardware/Software Integration, Linux (Debian)
Tools	Git, GitHub, Postman, Jira, ClickUp, Microsoft Office

Professional Experience

Intern Team Lead	
International Institute of Science and Technology (Pvt) Ltd (IIST)	October 2026 – Present
- Coordinate and distribute work across a team of interns, providing technical support, debugging help, and troubleshooting. - Support testing and validation and integrate components built by different team members to keep project progress on track.	
Software Engineer Intern	
International Institute of Science and Technology (Pvt) Ltd (IIST)	July 2026 – October 2026
- Built DetectFlow, a real-time object detection system (completed October 2026), using C++, OpenCV, NCNN, and YOLO-Fastest with low-resource, CPU-only inference on Linux (Debian). - Developed a web interface and server-side processing for live video and image detection, including live session control, frame retrieval, and JSON detection results. - Worked on multiple CMS projects covering frontend, backend, database and API integration, testing, and deployment. - Contributed to IoT HMI software and hardware integration, including system testing, debugging, and troubleshooting.	
IT Support Intern	
Co-operative Rural Bank	2023 – 2024
- Diagnosed and resolved hardware and software issues, providing daily technical support to staff. - Installed and configured applications and performed basic networking tasks, reducing reliance on external IT support.	

Projects

NoteLyze AI – AI Study Notes Generator

React, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, Python, Groq AI

notelyze.dev

- Web application that converts PDF and PPTX lecture files into structured study notes, summaries, and MCQs with nine learning presets.
- Built the text extraction, chunking, and AI prompt pipeline using a Node.js backend and a Python microservice for PPTX parsing.

MarkOra – AI Document Assistant

JavaScript, Chrome Extension (Manifest V3), Markdown, Document Parsing

Chrome Extension

- Browser extension that converts PDF, PPTX, DOCX, and TXT files into clean Markdown for use with ChatGPT, Claude, Gemini, and other AI platforms.

DontLate – Student Mobile App

Flutter, Dart, Firebase

Android

- Mobile app for attendance tracking, lecture materials, and reminder notifications.

Prometheus POS – Point of Sale and Inventory System

Java, MySQL

- POS system for small businesses with billing, stock tracking, product management, and reporting.

ARMS – Academic Records Management System

MERN Stack (MongoDB, Express.js, React, Node.js)

System Design

- Designed a records system for SLIATE Anuradhapura covering student profiles, semester results, batch, subject and curriculum management, and QR-based attendance.

GPS Speedometer

Dart

Mobile App

- Lightweight mobile app showing real-time GPS-based speed in km/h with a minimal interface, smooth speed display, and trip tracking.

Education

Higher National Diploma in Information Technology (HNDIT)

Sri Lanka Institute of Advanced Technological Education (SLIATE) – Advanced Technological Institute, Anuradhapura
2024 – Present

Relevant Coursework: Web Development, Object-Oriented Programming, Java, Database Management Systems, Data Structures & Algorithms, Software Engineering, Computer Networks, Operating Systems & Security, System Analysis & Design, Project Management

NVQ Level 4 – ICT Technician

Vocational Training Authority (VTA), Sri Lanka

2023

Leadership and Activities

- Student Representative for 100+ HNDIT students, communicating student feedback and academic concerns to faculty.
- Peer tutor supporting classmates with Java, C#, and PHP programming and application development.
